RE: Wholesale Distributor Accreditation Requirement Extension

Wholesaler,

OptumRx is providing a response to your request for extension to our requirements related to sourcing of medications and different OTC products from accredited wholesale distributors. The information you provided satisfies our expectations to grant a TEMPORARY EXTENSION to the requirement through January 1, 2017.

You may utilize this notice to assure our contracted Network Pharmacy Providers that you are able to continue to act as a distributor to provide covered products through the date of the TEMPORARY EXTENSION noted above. During this time you have attested that you are actively in pursuit of VDIP accreditation through the National Associations of Boards of Pharmacy (NABP). Any change in that status that would indicate that your organization will not achieve VDIP accreditation should be immediately communicated to OptumRx.

This is an interim extension only and is only for the period of time indicated above. OptumRx maintains that our contracted Network Pharmacy Providers must source medications and OTC products from an accredited source. This interim extension may be revoked at any time at the sole discretion of OptumRx. If your organization will require additional time after the interim period please contact the credentialing department at credentialing.contracting@optum.com at that time.

Sincerely,

Optum, Provider Credentialing
